“N/A” indicates that no graduates were recorded for that program within the specified period.

Calculations for Measures

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Graduation Rate	The graduation rate represents the percentage of students who complete their academic program within the standard timeframe as defined in the curriculum. This calculation excludes transfer students.
Graduation Rate =	$\frac{\text{Total graduates of the program in year T}}{\text{Graduates who completed the program on time in year T}}$
<i>N/A = applies to programs for which no graduation rate calculation was performed during the reporting period.</i>
