Master in Human Talent Management*	Graduation rate	100%	100%

Calculations for Measures

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Graduation Rate	This is an indicator of the percentage of students who finish the academic program in the exact time (defined in the curriculum of said program) of the total number of graduates in the year. Transfer students are not included in the calculation.

$Tasa\ de\ Graduact\ or\ n = \frac{Graduados\ en\ tttempo\ exacto\ del\ Progr\ ama\ X\ X\ en\ el\ año\ T}{Total\ de\ Graduados\ del\ Programa\ XX\ en\ el\ año\ T}$
N/A = not applicable calculate the graduation rate for the graduations considered

Note:For the calculation of the target, the projection of the graduation rate at the exact time for the year 2022 to the population of graduates of the last 5 years (2017 to 2021) of the careers and programs requested was taken into account.

*In these programs the number of graduates is between 1 and 8, which, being a small population, significantly influences the projection.
